

! \Rightarrow We ^{know} ~~know~~ the whole time, during every step!
everything what we need to calculate the next step!
determine

30/30

To Do:

- \rightarrow Find a better way of writing for equations (eq. I 1) and (eq. I 2)
- \rightarrow Think about possible approximations for z (eq. 10 v 2)
- \rightarrow Think about other useful $y^{\min/\max}$ ranges / ~~choices~~ choices
- ~~Determine the simplified recursion equation~~
- \rightarrow Determine the simplified recursion equation.
